

Applications

Production facilities	
<p>Around robots</p> <p>Mat switch (Personnel sensing)</p>	<p>Production line</p> <p>Mat switch (Intrusion detection)</p>
<p>Periphery of a rotary press</p> <p>Mat switch (Personnel sensing)</p>	<p>Mobile robot</p> <p>Bumper switch Edge switch (Contact/impact detection)</p>
<p>Automatic guided vehicles</p> <p>Bumper switch Edge switch (Contact/impact detection)</p>	<p>Lifter</p> <p>Tape switch ("Stuck in" detection)</p>
<p>Conveyor</p> <p>Tape switch (For emergency stop)</p>	<p>CT scanner</p> <p>Tape switch (Contact detection)</p>

Medical equipment, nursing care products

Public transportation and traffic systems	
<p>Mobile Service Robot</p> <p>Edge switch (Contact/impact detection)</p>	<p>Tire guard for an air bridge</p> <p>Edge switch (Contact/impact detection)</p>
<p>Automatic bicycle parking lot</p> <p>Mat switch (Personnel sensing)</p>	<p>Shutter</p> <p>Tape switch Edge switch ("Stuck in" detection)</p>
<p>Theme park, museum</p> <p>Mat switch (Visitor detection)</p>	<p>Stage set</p> <p>Bumper switch ("Stuck in" detection)</p>
Others	
<p>Sports</p> <p>Tape switch (Swimming starting blocks) Tape switch (Touch pad)</p>	<p>Security</p> <p>Tape switch (Intrusion detection)</p>
